

SPARE PARTS IN 1/1200 SCALE

With these fine detailed ships spares modellers can improve their models or convert existing models. A good example of this is, by adding ventilators to the most simple of ships models, an immediate improvement is to be seen. Carley floats when added suggest ships of W.W.2 and the good selection of gun turrets available make the conversion of warships much simpler. All spares are cast in fine white metal and can be quickly mounted with any good adhesive.

List No.	Description	Price Code
MS 1	80" Landing Craft (LCT) Tank	B
MS 2	15" British Gun Turret (Vanguard)	B
MS 3	6" British Triple Turret (Swiftsure)	A
